(1) Any candidate for classification who has taken an examination for an appraiser classification and successfully passed the examination must make application for an active or inactive appraiser classification within three months from the date of the examination date, or after three months, must pay a fee equal to two times the original application fee. Any candidate for classification who fails to make application for an appraiser classification within twelve months from the date of the examination taken must retake the examination. In addition to passing the qualifying examination, an applicant who applies for an appraiser classification must submit evidence satisfactory to the Board of successful completion of any required education and experience.

(2) Any applicant who meets the age, education, experience, and examination requirements as described in O.C.G.A. §§ 43-39A-8 and 43-39A-9 and the Rules and Regulations of the Board and whose application for an appraiser classification or reinstatement of a classification is then denied may request a formal hearing concerning that denial. The applicant must make that request in writing to the Real Estate Commissioner within sixty (60) days of the Board's mailing notice to the applicant to the address on the application that the Board has reviewed the applicant's application and voted to deny issuance of an appraiser classification. If the applicant does not make written application for a hearing within sixty (60) days, the application shall lapse and the applicant may not make another application for a classification without again standing and passing any qualifying examination that may be required for that classification and paying any required fees.

(3) Any applicant who meets the age, education, experience, and examination requirements as described in O.C.G.A. §§ 43-39A-8 and 43-39A-9 and the Rules and Regulations of the Board and who is denied issuance of an appraiser classification after having been granted the opportunity for a formal hearing may not make another application for an appraiser classification without again standing and passing any qualifying examination that may be required for that classification and paying any required fees.

(4) Any applicant who meets the age and education requirements as described in O.C.G.A. §§ 43-39A-8 and 43-39A-9 and the Rules and Regulations of the Board for State Registered Real Property Appraiser and whose application for such appraiser classification or reinstatement of a classification is denied by the Board may request a formal hearing concerning that denial. The applicant must make that request in writing to the Real Estate Commissioner within sixty (60) days of the Board's mailing to the applicant to the address on the application notice that the Board has reviewed the applicant's application and voted to deny that classification. If the applicant does not make written application for a hearing within sixty (60) days or is denied issuance of a State Registered Real Property Appraiser classification after having been granted the opportunity for a formal hearing, the application shall lapse and the applicant must pay any required fees when making a new application.

539-1-.05 Applications.

(1) Applications for an appraiser classification, for renewal of an appraiser classification, for any change in status of an appraiser classification, and for any change of information required to be filed with the Board, except a name change or a change of address, must be on Board approved forms.

(a) Any such application, change of information, or fee required to be filed with the Board may be filed with the Board by:

1. personal delivery to the Board's offices during regular business hours;
2. mail in a letter postmarked by the United States Postal Service; or
3. private courier or delivery service.

(b) Any application that does not require the payment of a fee may be filed by electronic facsimile (fax) transmission.

(c) The effective date of the filing of the application or fee shall be the United States Postal Service postmarked date, if mailed, or if otherwise filed, the date the Board dates the receipt of the application or fee. In the event that receipt by the Board of an application or fee occurs later than the deadline for the filing of such application or fee, the applicant or appraiser shall bear the burden of proof that the application or fee was timely filed.

(2) If a candidate for classification, an applicant, or an appraiser submits an application on a form which is no longer in use by the Board and pays the correct fee in effect on the date of the application, the Board may require the applicant or appraiser to submit a new application on its latest form at no further cost to the applicant or appraiser.

(3) An appraiser, a candidate for classification, or an applicant for an appraiser classification must supply all information requested on any form which the applicant or appraiser submits to the Board. Failure to supply all information shall cause the application to be incomplete. An application is incomplete if the applicant or the candidate for classification fails to include the proper fee, to attach any required documents, to provide all requested biographical or other data, to include required signatures, or to include legible responses. Failing to disclose each and every criminal conviction, as defined by O.C.G.A. § 43-39A-14 (a), or classification or license disciplinary action that the applicant may have in this state or any other jurisdiction may constitute a falsified application.

(4) The Board shall return any incomplete application, or any obsolete application, or any application on a non-approved form to a candidate for classification, an applicant, or an appraiser by mail at either (a) the address listed on the incomplete or incorrect application or (b) the last known business address of record in the Board's files if the incomplete or incorrect application contains no address. The candidate for classification, the applicant, or the appraiser must correct any deficiencies noted by the Board on such application within fourteen (14) days of the Board's mailing notice of the deficiency to the candidate for classification, the applicant, or the appraiser. If no response is received

by the Board within thirty (30) days of the Board's mailing notice of the deficiency, the application shall be viewed as abandoned, any fee paid forfeited, and the candidate for classification, the applicant, or the appraiser must submit a new application and fee in order to complete the transaction.

(5) After making an original application for an appraiser classification to the Board, the applicant shall not commence real estate appraisal activities under such appraiser classification until he or she has received a wall certificate of classification and pocket card from the Board.

(6) Duplicate wall certificates and/or pocket cards shall be issued upon satisfactory proof of loss of the original.

(7) The Board will provide reasonable accommodations to a qualified candidate for classification with a disability in accordance with the Americans With Disabilities Act. The request for an accommodation by an individual with a disability must be made in writing and received in the Board office by the application deadline along with the appropriate documentation, as indicated in the Request for Disability Accommodation Guidelines.

(8) Whenever an applicant or a candidate for classification submits to the Board an original application on paper for classification as, including but not limited to, a registered, licensed, or certified appraiser or for approval as a school or instructor, the Board shall maintain the paper record for a period of fifteen years and may then destroy the application. Whenever an appraiser submits any other application to the Board on paper, the Board shall maintain the paper record for a period of one year and may then destroy the application. The Board shall maintain all electronic licensing records for a period of at least 15 years.

(9) The Board shall maintain investigative files under the following schedules:

(a) forty years for all investigative files in which the Board imposes a formal disciplinary action; and

(b) fifteen years for all other investigative files.

(10) No more than 60 days prior to making application, each applicant for an appraiser classification, an instructor approval, or the Director of a school applying for approval shall obtain, at the applicant's expense, and attach to the applicant's application for classification a certified criminal history report issued by the Georgia Crime Information Center of the Georgia Bureau of Investigation indicating whether the applicant has any record of a criminal history. If that report indicates that the applicant has a record in another jurisdiction, the applicant must, at the applicant's expense, provide any necessary fingerprints, fees, authorization, or other requirements for the Board to obtain a Federal Crime Information Center report from the Federal Bureau of Investigation. If the criminal history report of such a candidate for classification reveals a prior criminal conviction(s) or if the candidate for classification has a prior professional classification or license disciplinary action, the candidate for classification shall comply with the

provisions in paragraphs (8) and (9) of this rule and said candidate for classification shall be subject to the provisions of 43-40-15 (a) et seq.

(11) A candidate for classification or an applicant for classification who has moved to Georgia from another state or a candidate for classification or an applicant for classification for non-resident classification may be granted a classification without further examination or education if such candidate for classification produces, from the regulatory body of each state which has classified the candidate or applicant for licensure, an original certification issued no more than six months prior to the candidate or applicant for licensure making application for licensure which shows that the candidate or applicant for licensure:

1. has passed an examination for the type of classification for which such candidate for classification seeks classification in Georgia;
2. has met all preclassification and continuing education requirements required by such other state(s) for that classification;
3. is classified in good standing at the time of the certification; and
4. has not had any formal disciplinary action imposed by such state's licensing body.

Rather than the written certification required of applicants by this paragraph, the Board, in its sole discretion, may choose to accept some electronic form of the certified data from other states, which applicants must submit, or by some other procedure that reduces paperwork. A candidate for classification whose certification does not comply with all of the conditions in this paragraph must take and pass the qualifying examination for the Georgia classification which such candidate for classification seeks.

539-1-.06 Certified Copies of Convictions.

(1) Whenever a candidate for classification or approval or an applicant for classification, approval, or renewal of a classification reveals, or the Board discovers, that such candidate for classification or approval or applicant for classification or approval or renewal of a classification has a criminal conviction, as that term is defined in O.C.G.A. §43-39-14 (b)(1)(A), such person must supply to the Board a certified copy of:

- (a) the citation, accusation, information, or indictment that led to the conviction; and
- (b) a certified copy of the sentence.

(2) Whenever a candidate for classification or approval or an applicant for classification, approval, or renewal of a classification reveals, or the Board discovers, that such candidate for classification or applicant for classification or approval or renewal of a classification has been the subject of a disciplinary proceeding before any licensing agency, such applicant must supply the Board with a certified copy of:

- (a) any allegations that preceded the final order; and
- (b) the final order of that licensing agency.

(3) The Board, in its discretion, may deem an application for classification as incomplete unless the requirements of paragraphs (1) and (2) are met and may elect not to process such an application unless and until those requirements are met.

539-1-.07 Reactivation of Inactive Appraiser Classification. Amended.

(1) Any appraiser who seeks to activate an appraiser classification which has been on inactive status and who is not current in meeting continuing education requirements shall be required to attend any Board approved course or courses of study necessary to bring such appraiser's continuing education requirements current.

539-1-.08 Reinstatement of Lapsed Appraiser Classification. Amended.

(1) Any appraiser whose appraiser classification lapses due to nonpayment of fees or failure to complete satisfactorily any of the education requirements of O.C.G.A. Chapter 43-39A shall be prohibited from engaging in real estate appraisal activities as defined in O.C.G.A. Section 43-39A-2 until such time as the appraiser classification is reinstated. Upon the lapsing of an appraiser classification, an appraiser shall forward his other wall certificate and pocket card to the board at once.

(2) Except as provided in paragraph (6) below, any appraiser who fails to pay a renewal fee and allows an active appraiser classification to lapse may reinstate that appraiser classification within two years of the date of its lapsing by paying the total amount of all renewal fees which would have been due while that appraiser classification was lapsed plus a reactivation fee and by successfully completing any required continuing education courses which would have been due while that appraiser classification was lapsed.

(3) Except as provided in paragraph (6) below, any appraiser who allows an appraiser classification to lapse for a period longer than two years but less than ten years due solely to a failure to pay a renewal fee may reinstate that appraiser classification by paying the total amount of all renewal fees which would have been due while that appraiser classification was lapsed plus a reactivation fee and by successfully completing 90 classroom hours of Board approved courses which include at least 15 classroom hours covering the Uniform Standards of Professional Appraisal Practice.

Courses taken to reinstate an appraiser classification under this paragraph must be taken within one year prior to making application for and paying the fees required for reinstatement. Any course taken under this paragraph must be taken at a Board approved school.

(4) Any appraiser whose appraiser classification lapses for failure to complete in a timely manner any continuing education required for renewal of that appraiser classification may reinstate that appraiser classification by (a) furnishing the Board evidence of having completed an approved course or courses of study and (b) paying any required fees. The course or courses of study required by (a) above must have a number of hours of instruction totaling at least 14 classroom hours for each year of the renewal period.

(5) Except as provided in paragraph (6) below, any real estate appraiser (except a State Registered Real Property Appraiser) who fails to pay a renewal fee and allows an appraiser classification to lapse and who does not elect to reinstate that appraiser classification under the provisions of paragraph (2) or (3) of this Rule may reinstate that appraiser classification by furnishing proof of completion of any required preclassification education and by taking and passing the appropriate qualifying examination for that appraiser classification.

(6) Any nonresident appraiser whose appraiser classification lapses for failure to pay a renewal fee may reactivate that appraiser classification by paying the fee required of an original applicant if such nonresident has maintained an active appraiser classification in his or her state of residence during the period that his or her appraiser classification lapsed and has met that state's continuing education requirements.

539-1-.17 Disclosure of Appraiser Classification and Number. Amended.

(1) When signing an appraisal report, an appraiser shall, adjacent to his or her signature, print or type his or her name, appraiser classification, and number assigned by the Board.

(2) When an appraiser makes reference to his or her appraiser classification status in any advertisement, statement of qualification, contract, or other instrument used by the appraiser, the appraiser shall print or type his or her name, appraiser classification, and number assigned by the Board. If the appraiser signs such document or advertisement, the appraiser shall, adjacent to his or her signature, print or type his or her name, appraiser classification and number assigned by the Board. Such disclosure is usually most clearly accomplished by spelling out the name of the key words in classification name: e.g., "Registered," "Licensed," "Certified Residential," or "Certified General."

(3) A State Registered Real Property Appraiser must clearly disclose such Registered appraiser's classification type on any appraisal report form that calls for inserting a classification number beside the names of such non-Registered classification types as licensed or certified. Thus, a State Registered Real Property Appraiser who draws a line through the name of the non-Registered classification type and enters the word "Registered" followed by such Registered appraiser's number issued by the Board shall be deemed to have complied with the requirements of this Rule.

539-1-.18 Preliminary Decisions Regarding Prior Criminal Convictions or Disciplinary Sanctions.

(1) The Official Code of Georgia Annotated Section 43-39A-14 provides in part that the Board may deny a classification to an applicant who has a prior criminal conviction(s) or a disciplinary sanction(s) imposed by any occupational licensing body. An applicant for classification is a person who has met all experience, education, and examination requirements for the classification sought.

(2) Because of the time and expense involved in becoming an applicant for classification, the Board affords an individual who has not yet become an applicant the opportunity to request that the Board make a preliminary decision on the conviction(s) or the prior disciplinary sanction(s) before the individual takes the required education and examination for classification. The purpose of a preliminary decision is merely to provide advisory guidance. Preliminary decisions are not binding. However, the Board may elect to allow a favorable preliminary decision to become its final decision without further investigation or hearing when the individual becomes an applicant for classification.

(3) An individual seeking a preliminary decision must submit to the Board a certified copy of any indictment and conviction or a disciplinary sanction imposed by another licensing regulatory authority. An individual seeking a preliminary decision may also provide the Board with any additional information that the individual believes may assist the Board in rendering a preliminary decision.

(4) A preliminary decision by the Board that is unfavorable to the individual shall not prevent the individual from becoming an applicant for classification by successfully completing all education, experience, and examination requirements for the classification. Whenever the Board denies a classification based on a prior conviction or prior disciplinary action, it must provide the applicant the opportunity for notice and a hearing. Authority O.C.G.A. 539-1-.19 Significant Professional Assistance.

(1) Whenever an appraiser utilizes the assistance of an unclassified person in the development or reporting of an appraisal assignment, the appraiser is responsible for the acts of the unclassified person and therefore subject to disciplinary action by the Board if the acts of the unclassified person violate any of the provisions of this Chapter.

Unclassified persons may perform only duties and tasks that are ministerial in nature and that do not require discretion or the exercise of judgement independent of the appraiser's specific instruction. Unclassified persons may not render significant professional assistance in arriving at a real estate appraisal analysis, opinion, or conclusion.

(2) In order to provide reasonable guidelines for appraisers and those persons who assist appraisers but without defining every permitted or prohibited activity, the Board has identified the following tasks that unclassified persons assisting an appraiser can and can not perform.

539-1-.20 Property Tax Consultants.

(1) A property tax consultant is an appraiser employed or retained to act in an advocacy capacity in a property tax appeal matter in which the appraiser acts as an advocate, not as a disinterested third party, in rendering an analysis, opinion, or conclusion relating the nature, quality, value, or utility of identified real estate or identified real property and in which any final determination of value is to be made by an authorized governmental entity or statutory process.

(2) A property tax consulting assignment is one in which the appraiser provides specialized services and is therefore subject to the requirements of the Official Code of Georgia Annotated 43-39A-20(3).

(3) In performing property tax consulting assignments, an appraiser must:

(a) obtain any occupational or professional license required to perform such specialized services;

(b) be aware of, understand, and correctly employ those recognized consulting methods and techniques that are necessary to produce credible results;

(c) not commit a substantial error of omission or commission that significantly affects the results of a property tax consulting assignment; and

(d) not render property tax consulting assignments in a careless or negligent manner, such as a series of errors that, considered individually, may not significantly affect the results, but which, when considered in the aggregate, would be misleading.

Departure from the requirements of this paragraph is not permitted in property tax consulting assignments.

(4) In performing property tax consulting assignments, an appraiser must observe the following specific guidelines:

(a) clearly identify the client's objective;

(b) define the problem to be considered, define the purpose and intended use of the property tax consulting assignment, consider the extent of the data collection process, adequately identify the real estate and/or property under consideration (if any), describe any special limiting conditions, and identify the effective date of the property tax consulting assignment;

(c) collect, verify, and reconcile such data as may be required to complete the property tax consulting assignment. If an independent appraisal assignment is pertinent to the property tax consulting assignment, an appraisal in conformance with Rule 539-3-.07 must be included in the data collection. All pertinent information shall be included;

(d) apply the appropriate consulting tools and techniques to the data collected; and

(e) base all projections on reasonably clear and appropriate evidence.

(5) In reporting the results of a property tax consulting assignment, an appraiser must communicate each analysis, opinion, and conclusion in a manner that is not misleading. Each written or oral consulting report must:

(a) clearly and accurately set forth the property tax consulting assignment in a manner that will not be misleading;

(b) contain sufficient information to enable the person(s) who receive or rely on the report to understand it properly; and

(c) clearly and accurately disclose any extraordinary assumption or limited condition that

directly affects the property tax consulting assignment and indicate its impact on the final conclusion or recommendation (if any).

Departure from the requirements of this paragraph is not permitted in property tax consulting assignments.

(6) Each written property tax consulting assignment must comply with the following specific reporting guidelines:

- (a) define the problem to be considered;
- (b) state the purpose of the property tax consulting assignment;
- (c) identify and describe the real estate and/or property under consideration;
- (d) set forth the effective date of the property tax consulting assignment and the date of the report;
- (e) describe the overall range of the work and the extent of the data collection process;
- (f) set forth all assumptions and limiting conditions that affect the analyses, opinions, and conclusions;
- (g) set forth the information considered, the consulting procedures followed, and the reasoning that supports the analyses, opinions, and conclusions;
- (h) set forth the appraiser's final conclusions or recommendations (if any);
- (i) set forth any additional information that may be appropriate to show compliance with, or clearly identify and explain permitted departures from, the requirements of paragraphs (3) and (4) of this Rule; and
- (j) include a signed certification in accordance with paragraph (7) of this Rule.

(7) Each written property tax consulting assignment report must contain a certification that is similar in content to the following form:

I certify that, to the best of my knowledge and belief:

-- that this report has been prepared in my capacity as an advocate in a property tax appeal matter and not as a disinterested third party.

-- the statements of fact contained in this report are true and correct.

-- the reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, professional analyses, opinions, and conclusions.

-- my analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the relevant appraisal standard adopted by the Georgia Real Estate Appraisers Board.

-- I have (or have not) made a personal inspection of the property that is the subject of this report. (If more than one person signs the report, this certification must clearly specify which individuals did and which individuals did not make a personal inspection of the property.

-- no one provided significant professional assistance to the person signing this report. (If there are exceptions, the name of each individual providing significant professional assistance must be stated.)

Departure from the requirements of this paragraph is not permitted in property tax consulting assignments.

(8) To the extent that it is both possible and appropriate, any oral report (including expert testimony) of a property tax consulting assignment must address the substantive matters set forth in paragraph (6) of this Rule.

539-2-.03 Courses.

(1) The Board intends that all approved courses be educational in nature. Schools should not specifically orient approved courses to the passing of state examinations or other examinations. The courses should introduce students to the language of the profession and basic theory underlying the duties and responsibilities of a real estate appraiser. Approved courses shall require practice in the skills being taught and provide a significant number of exercises for practice of those skills. All courses should make students aware of the need for further study and the perfection of practical skills.

(2) The curriculum of courses approved under this Rule should include at a minimum the following:

(a) for courses approved to meet the education requirement for state registered real property appraiser:

1. 30 hours in Basic Appraisal Principles covering topics such as real property concepts and characteristics, legal considerations, influences on real estate values, types of value, economic principles, an overview of real estate markets and analysis, the provisions of the Appraisal Act and its Rules and Regulations, and ethics and how they apply in appraisal theory and practice;

In calculating and advertising its passing percentage, an approved school must include the following information:

- (i) require that the student demonstrate mastery of all material covered by the learning objectives for the module before the module is completed.

(3) Prior to the development of specific computer-based courses to be offered to meet education requirements, a school must submit to the Board for its approval satisfactory documentation of the method by which each element of mastery on paragraph (2) of this Rule is to be accomplished. If the Board authorizes that method, the school may utilize that method in developing any courses it may offer to meet appraisers' education processes implemented with computer-based courses must be based on sound instructional strategies that have been systematically designed and proven effective through educational research and development. The basis and rationale for any proposed instructional approach must be specified in any request for approval.

- (8) Every school offering an approved computer-based course shall offer those courses under an approved instructor who shall:
- (a) be available to answer students' questions or provide them assistance as necessary;
- (b) provide reasonable oversight of students' work in order to insure that the student who completes the work is the student who is enrolled in the course;
- (c) obtain from each student the following certification statement:

539-3-.01 Federally Related Transactions.

(1) A federally related transaction is any real estate related financial transaction that (A) a federal financial institutions regulatory agency or the Resolution Trust Corporation engages in, contracts for, or regulates; and (B) requires the services of an appraiser.

(2) In developing and reporting an appraisal of real property in a federally related transaction, an appraiser must comply with the standards required by the federal financial institutions regulatory agency that regulates the financial transaction for which the appraisal assignment was undertaken. For each appraisal assignment, it is the responsibility of the appraiser to determine what standards a federal financial institutions regulatory agency requires.

(3) In developing and reporting an appraisal of real property in a federally related transaction; an appraiser must take reasonable efforts to identify and report (a) the identity of the current owner of the property, (b) whether the property is listed for sale and identify and state in the appraisal report all list prices within the preceding year reported by reliable sources; (c) whether the property is under contract for sale, and (d) whether the property has sold or had deed transfer within the last three years prior to the effective date of the appraisal.

(The appraiser must also identify and state in the appraisal report all list prices within the preceding year reported by reliable sources); and

(c) a written statement signed by the party ordering the appraisal that such party has disclosed to the appraiser all pending agreements to sell the property of which it is aware and has supplied to the appraiser all written agreements to sell the property of which it is aware.

539-3-.02 Standards for Developing and Reporting An Appraisal.

(1) In developing and reporting an appraisal of real property, an appraiser shall not:

(a) perform any appraisal assignment beyond the scope of authority granted in the appraiser classification held;

(b) fail to disclose clearly and accurately the appraiser classification and number granted to the appraiser by the state; and

(c) fail to employ correctly methods and techniques that are necessary to produce a credible appraisal. Unless the appraiser expressly provides a credible real estate appraisal justification in the appraisal report, the appraiser may not vary from the following guidelines:

1. appraisers reaching a conclusion of value for a real property must:

a. Obtain all data used in every appraisal from a reliable source and verify that data from at least one additional reliable source. For purposes of this Chapter a reliable source shall be one typically utilized by appraisers in the area and includes, but is not limited to, a personal inspection by the appraiser; publicly filed records; property tax records; an appropriate local multiple listing service; and commercially available data based and publications reasonably relied upon by appraisers in the ordinary course of their business. An appraiser may also rely upon information obtained from real estate appraisers, brokers, closing attorneys, sellers, and buyers provided that the appraiser maintains (1) documentation of any information obtained from appraisers, brokers, closing attorneys, sellers, and buyers and (2) the name and telephone number and/or address of each source in the appraiser's file for at least five years;

b. Obtain for the appraiser's file the Tax Assessor's 100% market value;

c. identify and state in the appraisal report any list prices of the property if listed within the preceding year reported by reliable sources; and

d. comment on the impact on the market value of the subject of foreclosure activity in the market area of the subject property.

2. appraisers utilizing the market approach for reaching a conclusion of value for a real property must:

a. identify and describe the market area as a geographic location;

b. select comparable properties that are the most recent sales and that reflect current market conditions for valuation of the subject property. Absent a credible real estate appraisal explanation for a different definition of most recent sales, most recent sales shall be within one year and in the market area. The most recent sales shall be presumed to be properties that have sold within the preceding year of the *effective* date of the appraisal;

c. select comparable properties for valuation of a residential property that require the net total of any adjustments to the sales price of a comparable sale not to exceed 15% and

the gross total of all adjustments (whether positive or negative) not to exceed 25%, absent a credible real estate appraisal explanation for differing adjustments;

d. select comparable properties for valuation of a property that are located within the market area of the subject. Absent a credible real estate appraisal explanation for a different market area, the market area for residential properties shall be presumed to be comparable properties located first within the same subdivision as the subject and second located within one mile of the subject;

e. identify and list in the appraisal report all dates of sale and sales prices and deed transfers of the subject property within the preceding three years and all dates of sale and sale prices of the comparable properties within the preceding year;

f. comment on instances in the market area of the subject property of transactions in which sales of the same property occurred within six months of each other and such transactions had an increase in sales price of more than 25%.

3. appraisers utilizing the cost approach for reaching a conclusion of value for a real property must include in the appraisal report the relevant replacement cost data from a source reasonably relied upon by appraisers in the ordinary course of their business. Said source must be identified by title on the appraisal report;

4. appraisers utilizing the income approach for reaching a conclusion of value for a real property shall identify in the appraisal report the source of any income data used in the appraisal report; identify any ownership or other interest which such source has in the subject property; and maintain in the appraiser's file for a period of five years written verification of such income data.

(d) commit a substantial error of omission or commission that significantly affects the appraisal;

(e) render appraisal services in a careless or negligent manner;

(f) communicate the appraiser's analyses, opinions, or advice in a manner that is misleading to the client;

(g) fail to include in a report of an appraisal sufficient information to enable the person(s) who are expected to receive or rely on the report to understand it properly;

(h) perform an independent appraisal assignment with partiality or an accommodation of personal interest;

(i) accept an independent appraisal assignment when the employment itself is contingent upon the appraiser's reporting a predetermined estimate, analysis, valuation, or opinion or where the fee to be paid is contingent upon the opinion, conclusions, analysis, or valuation reached or upon the consequences resulting from the appraisal assignment;

(j) perform any appraisal assignment without (1) disclosing any lack of knowledge and/or experience to the client before accepting the assignment; (2) taking all steps necessary to complete the assignment competently; (3) describing the lack of knowledge

and/or experience and the steps taken to complete the assignment competently in the appraisal report; and (4) having the client expressly identify any other persons or entities that the client expects to rely on the appraisal report;

(k) report the results of a real property appraisal without disclosing the nature, extent, and detail of the appraisal processes undertaken;

(l) fail to disclose clearly and accurately in the appraisal report any assumption or any limiting condition that directly affects the appraisal and to indicate its impact on value;

(m) fail to include in an appraisal report a certification that includes the following items in language substantially similar to the following:

I certify that, to the best of my knowledge and belief:

- the statements of fact contained in this report are true and correct.
- the reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, unbiased professional analyses, opinions, and conclusions.
- I have no (or the specified) present or prospective interest in the property that is the subject of this report, and I have no (or the specified) personal interest or bias with respect to the parties involved.
- I have no bias with respect to the property that is the subject of this report or to the parties involved in this assignment.
- my engagement in this assignment or in any future assignment is not contingent upon developing or reporting predetermined results.
- my compensation is not contingent upon the reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result, or the occurrence of a subsequent event.
- my analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Georgia Real Estate Appraiser Classification and Regulation Act and the Rules and Regulations of the Georgia Real Estate Appraisers Board.
- I have (or have not) made a personal inspection of the property that is the subject of this report. (If more than one person signs the report, this certification must clearly specify which individuals did and which individuals did not make a personal inspection of the appraised property.)
- no one provided significant professional assistance to the person signing this report. (If there are exceptions, the name of each individual providing significant professional assistance must be stated and the professional assistance provided must be disclosed.);

(n) falsify any part of an appraisal report;

(o) fail to maintain at all times direct control of the appraiser's signature and the method by which that signature is affixed to an appraisal report. An appraiser may grant permission to another to affix the appraiser's signature to an appraisal report provided that the permission is in writing, the permission extends to only one specific appraisal report, the writing identifies the report and the amount of the opinion of value, and the appraiser maintains a copy of the written permission in the appraiser's work file. An appraiser shall not grant blanket authority to another person to affix the appraiser's signature to an appraisal report or reports; and

(p) use any uniform residential appraisal report form for reporting appraisal work for any purpose other than to report an appraisal.

(2) An appraiser who signs a real property appraisal report prepared by another accepts full responsibility for the appraisal and the contents of the appraisal report.

(3) An appraiser shall not disclose confidential information or the results of an appraisal assignment to anyone other than:

(a) the client and persons specifically authorized by the client;

(b) state enforcement agencies and such third parties as may be authorized by due process of law; and

(c) a duly authorized professional peer review committee.

(4) In developing and reporting an appraisal of real property in a non-federally related transaction; an appraiser must take reasonable steps to identify and report (a) the identity of the current owner of the property, (b) whether the property is listed for sale and identify and state in the appraisal report all list prices within the preceding year, (c) whether the property is under contract for sale, and (d) whether the property has sold within the last three years prior to the effective date of the appraisal.

(5) While documenting compliance with the requirements of paragraph (4) above may be accomplished in a variety of ways, an appraiser who attaches to the appraisal report the following items, obtained contemporaneously with the appraisal, shall be deemed to have met the requirements of this rule:

(a) a copy of the most recently recorded deed transferring ownership of the property or county tax records showing the name(s) of the property's current owner(s) of record,

(b) a copy of any existing listing agreement or documentation from a multiple listing service that reflects a listing period of the property and its owner(s); and

(c) a written statement signed by the party ordering the appraisal that such party has disclosed to the appraiser all pending agreements to sell the property of which it is aware and has supplied to the appraiser all written agreements to sell the property of which it is aware.

(6) When a client of an appraiser requests an appraisal of a property that was the subject of an appraisal performed by that appraiser for a different client and intended user(s) with a new effective date and if the appraiser uses any data from the original

appraisal in the appraisal for the new client, then, unless the appraiser expressly provides a credible real estate appraisal justification in the appraisal report, the appraiser must, at a minimum:

- (a) perform an inspection of the subject property sufficient in scope to provide a credible appraisal;
- (b) re-verify any data from the first appraisal that is being re-used in the new appraisal;
- (c) review the comparable sales that were used in the original appraisal and analyze any comparable sales that have occurred or on which information has become available since the date of the original; and
- (d) identify the new client and intended user(s).

539-3-.03 Review of Appraisals.

(1) An appraisal review assignment shall consist of developing and reporting an opinion of the quality of another appraiser's work.

(2) In undertaking an appraisal review assignment, the appraiser must:

(a) identify for the appraisal review assignment the client, the intended users, the subject, the effective date, the purpose of the assignment, and the scope of work to be performed;

(b) develop and report a credible opinion of the quality of another appraiser's work including, but not limited to, an opinion as to whether the data is adequate and relevant, the appraisal methods used are appropriate, and the analyses, opinions, and conclusions in the work being reviewed are reasonable and appropriate; and

(c) disclose in the appraiser's report the nature, extent, and detail of the review process undertaken and include all known pertinent information.

(3) Anytime an appraiser develops and reports an opinion of value that agrees or disagrees with the opinion of value developed and reported in an appraisal assignment performed by another appraiser, that opinion is an appraisal, not a review of an appraisal. When the purpose of an appraisal review assignment also requires that the appraiser develop an opinion of value of the subject of the review assignment, that requirement must be identified in the purpose and scope of work of the appraisal review assignment and the appraiser must comply with the applicable standards for developing an appraisal.
